

MINOSH PERERA

AI/ML Engineer | Multi-Agent Systems | Cloud Solutions

(+94) 77-4252989 sithijaperera3@gmail.com linkedin.com/in/minoshperera/ Kandana, Sri Lanka

SUMMARY

AI Engineer and Electrical & Electronic Engineering graduate specializing in Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and scalable AI systems. Experienced in developing production-grade AI applications, including AI assistants for CRM platforms that generate lead insights, pipeline summaries, and product details using Python, FastAPI, and Django. Skilled in vector databases, semantic search, prompt engineering, and end-to-end ML/LLM pipelines, with a focus on optimizing latency, throughput, and system reliability. Proficient in cloud environments (AWS, GCP, Huawei) and CI/CD practices using Docker and Jenkins. Adept at building secure, multi-tenant architectures and delivering high-impact AI solutions for automation and data-driven decision-making.

WORK EXPERIENCE

Artificial Intelligence Engineer

Whiterock Global Solutions (Pvt) Ltd

03/2026 - Present Colombo, Sri Lanka

Developed and deployed a cloud-based AI-powered CRM platform using Django, DRF, and MongoDB with RBAC-based multi-tenant architecture, integrating RAG pipelines (Claude APIs) for generating lead insights, pipeline summaries, and product details, achieving **30%** improved data access efficiency, **50%** reduction in manual analysis, and **25%** increase in response accuracy; engineered CI/CD pipelines using Jenkins, GitHub, and Docker on Ubuntu, delivering **50%** faster deployments and **20%** reduction in downtime, while designing scalable solution architecture for ERP admin panel modules.

Trainee AI/ML Engineer

Aethria Solutions

08/2025 - 02/2026 Colombo, Sri Lanka

Architected and deployed cloud-based Multi-Agent RAG applications with MongoDB/OpenAI (multilingual, STT/TTS), achieving **40%** faster queries, **99.9%** data isolation, and real-time semantic search; built intelligent conversation management with automated lifecycle controls reducing memory overhead **35%** while sustaining sub-200ms search across agricultural knowledge bases.

Cloud Engineer Intern

Huawei Technologies Lanka Co., (Pvt) Ltd

02/2025 - 05/2025 Colombo, Sri Lanka

Developed scalable AI-powered cloud solutions optimizing compute resources to cut deployment costs and boost performance by **~30%**, while leading client requirement analysis and cloud strategy design for Huawei Public/Hybrid Cloud deployments, improving satisfaction, integration speed (**+15%**), and scalability.

Radio Network Planning & Optimization Engineer Intern

Hutchison Telecommunications Lanka (Pvt) Ltd

01/2023 - 04/2023 Colombo, Sri Lanka

Monitored KPIs across 2G/3G/4G to optimize network quality (**+20%**) and supported NOC alarm troubleshooting, complaint resolution, and technical coordination to sustain **99.5%** uptime and reduce unresolved tickets by **25%**.

EDUCATION

B.Sc. (Hons) in Electrical & Electronic Engineering
Sri Lanka Institute of Information Technology

06/2021 09/2025 Colombo, Sri Lanka

Diploma in Information and Communication Technology
International College of Business and Technology

01/2021 07/2021 Colombo, Sri Lanka

G.C.E. A/L Examination - 2020
Mahanama College - Colombo 03

01/2007 11/2020 Colombo, Sri Lanka

Chemistry C, Physics C, and Combined Mathematics S

PROJECTS

Smart Stroke Prediction Application Powered by AI

github.com/MinoshPerera/ML-Based-Stroke-Prediction-Model-

Developed an AI-powered stroke risk prediction tool using ANN, achieving satisfactory model accuracy on a dataset of 5.110 patients.

Automated MCQ Sheet Evaluation App via Optical Mark Recognition (OMR)

github.com/MinoshPerera/omr-grading-app

Built a Python-based OMR grading system using OpenCV and Excel automation, enabling fast, accurate evaluation of multiple-choice answer sheets with CSV export and real-time visual feedback.

DeepSeek-Powered AI Agent for Financial Intelligence

github.com/MinoshPerera/Financial-AI-Agent-DeepSeek

This Automates market research, news analysis, and data retrieval using Yahoo Finance and DuckDuckGo within a multi-agent system.

SKILLS

Vector Databases

AI Agents

Hugging Face Libraries

MLOps

LLM

Relational and Non-Relational Databases

Cloud Deployment

Python
